

The U.S. Society on Dams (USSD) Young Professional (YP) Committee's Student Outreach Subcommittee is organizing a career fair as part of the 2020 USSD Conference, and we invite you to participate. Holding the conference in Denver presents a unique opportunity to host an industry-specific career fair in a city that understands the importance of dams and levees and with strong academic programs focused on this subject.

**Benefits:**

This opportunity provides benefits to employers by offering access to a targeted group of students who are interested in dams and levees. The career fair will be open to students from schools with exceptional engineering programs in the Denver area, as well as all students attending USSD (including scholarship recipients). Employers are able to use this opportunity to meet potential employees with relevant academic background. The career fair also benefits the industry by inviting students to learn about dams and levees through USSD, which helps to attract talented new engineers to the industry.

**Format:**

The event will be held in the exhibit hall from **1:30 pm to 4:00 pm on Wednesday, April 22, 2020**. Students will have the opportunity to visit booths to learn about your company and career opportunities. Company bios will be available to students ahead of time.

**Employer Involvement:**

Involvement in the career fair is easy. Respond to this email to express interest, and provide contact information for your company's selected career fair representative(s). Future correspondence will be sent to your selected representative(s).

- If available, develop a list of entry level/internship openings focused on dams and levees.
- Prepare a brief bio with a description of career opportunities, type of work, expectations, and required qualifications.
- Make a representative available between 1:30pm and 4:00 pm on Wednesday, April 22, 2020 to meet with students during the career fair.
- Provide students with information regarding the next steps, including a point of contact and communication following the career fair.
