

### **Mr. David Wilson, WALO International AG / WALO USA**

David Wilson has been involved in the civil engineering and asphalt industries for over 40 years. Initially he was employed as an Indentured Engineer in the Engineering Department of a large Municipal Authority in the UK where his training was broad and varied. During this time he studied for his formal Civil Engineering and Professional qualifications and studied for a MBA.

In 2008 he joined WALO as Managing Director of WALO UK Limited and has been involved in delivering many Hydraulic Asphalt Engineering projects in the UK and globally. He is now principally responsible for International work acquisition of Hydraulic Asphalt Engineering Projects for WALO International AG – in the English-speaking parts of the World.

David is also a Senior Vice President of WALO USA, responsible for Hydraulic Asphalt Engineering sector, in North America.
