

U.S. Society on Dams presents

Professional Ethics Webinar

Description:

Ethics is often referred to as the right or wrong way of doing things. But how do we act when no one is watching? During this course we will define ethics, look at the NSPE Code of Conduct for Engineers and analyze case studies that will help you explore and strengthen your own professional ethics.

Course Content:

- Define Professional Ethics
- Develop a Personal Code of Conduct
- Analyze NSPE Board of Ethical Review Case Studies
- Learn about available resources on ethics
